

JUDGE JACKSON IS ON HAND

HE IS READY FOR REARGUMENT ON THE INCOME TAX LAW.

Chief Justice Fuller and Other Justices of the Supreme Court Called Upon Him and During the Course of Their Conversation the Rehearing Was Outlined—The Whole Case Will Be Gone Into.

Washington, D. C., May 5.—Justice Jackson of the supreme court of the United States arrived in Washington this morning from Tennessee to hear the re-argument of the income tax cases. He made the trip with but little fatigue. The justice looks well, although he has lost considerable in weight since he left Washington last winter.

During the afternoon and evening Chief Justice Fuller and several other justices called upon Justice Jackson to express their pleasure at his return. In the course of their conversation the rehearing was outlined to Justice Jackson. The whole case will be gone into and the rehearing will include the constitutionality of the tax on rents and state and municipal bonds, as well as upon all other points on which the court divided equally on April 8.

After the argument has been concluded Justice Jackson will join in the conference and on the determination will return to Nashville. He expects to be in Washington only about a week, probably less. From this fact it has been inferred that the reargument will result in no variation of the decree rendered by the court last month.

The argument, as stated in the order, will be confined to two counsels on each side, but no limitation of time will be fixed. This makes it probable that it will be concluded before Tuesday afternoon or Wednesday. For the opponents of the law Messrs. W. D. Guthrie and Joseph H. Choate will again appear and the constitutionality of the law will be affirmed by Attorney General Olney and Assistant Attorney General Whitney.

IT WAS QUIETLY DONE.

There was no trouble at the Evacuation of Corinto.

Washington, May 5.—According to advices received to-day, the evacuation of Corinto by the British was quietly accomplished to-day and the port was restored to Nicaraguan authority. Shortly after midnight Saturday Minister Guzman received a cable message stating that all the preliminaries had been satisfactorily arranged with the British admiral. In this manner Nicaragua was spared any appearance of humiliation, and friction was avoided. Nicaragua will pay the indemnity in two weeks.

Cabinet Crises Settled.

London, May 5.—The Standard's Vienna correspondent says that Austrian and Hungarian cabinet crises have been settled temporarily.

SHOT IN THEIR TRACKS.

Escaping Criminals and Deputy Sheriffs Have a Hard Battle.

Wichita, Kan., May 5.—Waddie, Hill and Heffen, prisoners in the jail at Woodward, Oklahoma, yesterday obtained possession of a revolver, got the drop on the turkey and compelled him to unlock the door of the cell. The prisoners then locked the jailer in the cell and hastened to the hills. Their escape was soon discovered and the sheriff and a party of deputies started on horseback after the fugitives.

The men had only gone a mile when the officers overtook them. There was a terrible battle, which ended in the killing of Heffen and Hill and the capture of Waddie. Officer Prior's horse was shot from under him and Deputy Marshal Wolfert was shot through the left shoulder so that amputation was necessary. The verdict of the inquest was that the killing was justifiable.

ALL TRADES REPRESENTED.

Union Demonstration in London in Favor of the Eight Hour Day.

London, May 5.—The London May-day celebration, which was held to-day, took the form of a trades union demonstration at Hyde park in favor of the eight-hour day. Groups from every district in London gathered on the Thames embankment with bands, banners, sashes and badges. Every trade was represented. The procession was an hour in passing a given point. The weather was dull and cold, but not rainy. Thousands of spectators stood along the route and in the park. The speaking began at 4 o'clock on nine platforms.

John Burns was interrupted frequently in his address and his friends caused a great commotion by trying to expel the disturbers. Among the other speakers were Dr. Aveling and Ben Tillett. Many less conspicuous labor agitators and a few county councillors also spoke. The resolutions demanding a legal eight day, government solution of the unemployment question and universal suffrage were carried with enthusiasm.

WHOLE FAMILY POISONED.

Their Illness Due to Milk Supplied by a North Bridgeport Farmer.

Bridgeport, May 5.—The family of Harry Bennett, a bartender at the Windsor hotel, in this city, are ill from milk poisoning. The servant employed Bennett's family was taken down on Wednesday last and was followed by the illness of Mrs. Bennett. Two days afterwards three members of the family named Hasbach, who lived next door, were taken suddenly ill. Dr. Lockhart, the physician, who was called to attend the Bennetts decided at the two families had been poisoned at the milk supplied by a farmer in North Bridgeport, who supplied both the Bennetts and the Hasbachs. All those who are ill are likely to recover except Mrs. Bennett, whose condition regarded as critical.

Some of the milk supplied by the farmer to the customers who are ill will be analyzed.

BUCHANAN IS HAPPY.

Warden Sage Will Take No Action Until All is Settled.

Sing Sing, N. Y., May 5.—Warden Sage said this evening he would not take further action in the Buchanan matter until the matter had been settled by the courts.

The warden says Buchanan is a very happy man and considers that he has an extended lease of life. Mrs. Buchanan, accompanied by Lawyers Gibbons and Roche, visited her husband this afternoon and had a long interview.

Her Mind Still Clouded.

Bordentown, N. J., May 5.—Mrs. Parnell's condition shows some improvement to-day, but her mind is still clouded.

Kneebis is Acquitted.

Sloux City, Ia., May 5.—Bob Kneebis, who recently had so much trouble over his alleged "fringing" of horses on German tracks, has been notified that he has been acquitted by the German authorities on one of the charges against him. He left for Chicago yesterday with twelve witnesses to give testimony before the German consul with reference to the other charges.

Poisoned His Children.

Atlanta, Ga., May 5.—William H. Waddie yesterday gave deadly poison to his three children, aged six to ten years, and then took a dose himself, evidently with suicidal intent. The children all died in a few minutes. Waddie is alive, but unconscious. His wife died a few months ago and it is thought her loss is the direct cause of his act.

Sold by Her Father.

Wichita, Kan., May 5.—Rosa Whiteface, a pretty young Indian maiden, now a pupil of the Caddo Indian school, has been sold by her father to her sister's husband for fifteen ponies. The Indian whose wife she is to become is seventy years old and already has other wives.

Badly Decomposed Body Found.

Boston, May 5.—At 7:30 this morning the body of an unknown man was found floating in the water off Battery wharf by the harbor police. The body was badly decomposed and was removed to the North Cove street morgue. The man was about 50 years old, 5 feet 8 inches tall, weighed 150 pounds, wore a dark overcoat, dark sack coat, dark vest, black trousers, long boots.

Died From Her Burns.

Augusta, Me., May 5.—Josephine Racum, aged about sixteen, died last night from burns received one week ago by her clothes igniting from a match thrown on the floor while she was curling her hair.

Found Dead in His Shop.

Marblehead, Mass., May 5.—At 7 o'clock this morning John Noon was found dead in the entry of a shoe shop on Lookout Court. Dr. Carleton of Salem was called, and he pronounced death to be due to strangulation. Mr. Noon was well known by the theater-going people throughout New England. He had evidently attempted to gain entrance to the upper room and had fallen down stairs. He weighed about 250 pounds.

Damage by Explosion.

Mt. Vernon, N. Y., May 5.—Forty pounds of dynamite stored in a shanty at Wood Park, a new section of the city, exploded at midnight last night with terrific force, causing damage to surrounding property to the extent of \$20,000. The concussion shattered windows, demolished walls and turned people from their beds within a radius of half a mile from the scene.

Will Use New Turrets.

Washington, May 5.—Elliptical turrets will be one of the novelties of the battleship Iowa, Naval Constructor Stahl's design having been approved by the department. By this innovation 100 tons of dead weight armor will be dispensed with. Instead of a circular turret will be an ellipse with a minor axis of nineteen feet. The turret will also be manipulated with one-third less power than the older ones. Naval authorities are so impressed with the advantages of the improvements that, if any, circular turrets will hereafter be used on naval vessels.

Cattle Thrown Overboard.

London, May 5.—The steamer Angolan from Boston, which arrived at Liverpool yesterday, reports having jettisoned 226 cattle and a portion of her cargo of cotton during the voyage.

Consulate in Montreal.

Rome, May 5.—The recent development of Italy's commercial relations with Canada has caused the government to decide to found a consulate in Montreal.

No Loss of Life.

Rome, May 5.—A bomb was exploded to-day outside the law courts building in Macerata, capital of Macerata province. It caused considerable damage, but no loss of life.

Exchange of Opinions Continues.

Paris, May 5.—The St. Petersburg correspondent of Temps says that Japan, in her reply to the joint protest, consented to abandon Liao expelling Port Arthur. The protesting powers have not reached an agreement regarding the reply, the correspondent asserts, and the exchange of opinion continues.

Germany is Active.

Berlin, May 5.—The battleship Kaiser sailed yesterday to join the German squadron in Asiatic waters. She carried 644 sailors and marines, who will raise the total of the German force in Chinese water to 2,000 men.

WAS BLOWN INTO THE AIR

EUGENE McQUIRK WAS INSTANTLY KILLED BY AN EXPLOSION.

He Carried a Lighted Lamp to the Top of an Empty Tank and Pried Off the Manhole with a Crowbar—Hartford Gas Company's Works the Scene of Explosion.

Hartford, May 5.—The residents in the neighborhood of the Hartford Gas company's works at Front and Potter streets were awakened from their sleep at 4:30 this morning by a rumbling report which sounded like thunder. A big tank used for storing water, and with a capacity for 25,000 gallons, had exploded and caused the loud report. The big tank was situated out in the yard. It was twenty-seven feet high and twelve feet in diameter. The tank had been out of repair for a week.

One of the employees notified Eugene McQuirk, who had charge of the tank, that there was no water in the tank, although the indicator showed that there was some in it. McQuirk took a ladder and went to the top of the tank to investigate. He pried off the manhole with a crowbar, and it is supposed he carried a lighted lamp with him. It is thought that the tank was filled with marsh water, or what the gas officials call fire damp, and that the lighted lamp coming in contact with the gas caused the explosion.

The top of the big tank was blown off 200 feet in the air and landed on the ground a short distance away from the tank, broken in several pieces. McQuirk was blown fifty feet in the air and was killed instantly.

When the other employees of the gas works heard the report of the explosion they rushed out of doors and found McQuirk's body lying on the ground. Physicians were summoned but it was found that the man had been dead some time. His shoulder on the left side was crushed and both legs and arms broken. He was twenty-eight years of age and was single. So far as can be learned he had no relatives in this city. He formerly served in the United States navy and has a brother now in the service.

The windows in the building on the property of the gas company were shattered by the force of the explosion. The tank was one which the company used for the storage of water from the river for the manufacture of water gas. Coroner Taintor of this city made an investigation to-day and decided that the company was not criminally responsible for McQuirk's death. The latter was probably responsible for the explosion, the coroner believed, through his own carelessness. The tank which blew up this morning was a comparatively new one, and was not thought to be defective.

Fear of War Does Not Abate.

Berlin, May 5.—Last week's dispatches from Christiania and Stockholm show that the fear of war between Norway and Sweden does not abate. The Christiania defense committee has decided to order torpedo boats in Germany.

Troops Ordered Out.

Norfolk, Va., May 5.—Governor O'Ferral this afternoon ordered the Jackson Light Infantry to be in readiness to go to Pochontas at a moment's notice.

To be Auxiliary Cruisers.

Berlin, May 5.—The North German Lloyd and Hamburg-American steamers for which the German admiralty has contracted as auxiliary cruisers in case of war, are the Aller, Saale, Trave, Lahn, Havel, Spree, Feurst Bismarck, Augusta Victoria, Normannia, an Columbia. Each is to carry eight guns of fifteen centimetres, four guns of twelve and one-half centimetres, four quick-fire and fourteen revolving guns. A vessel with this armament will be tested at the naval manoeuvres off Stettin and Swinemunde.

May Have Poisoned Her Children.

Chicago, May 5.—Mrs. Annie O'Neal is under police surveillance and is believed to have poisoned two of her children during the week. A third child out of the four is missing. Her husband, John, separated from her about two years ago because of infidelity. She informed him she would poison the children and herself if he did not return. Last Monday Eddie, aged eight, was buried, a physician's certificate ascribing heart disease having been issued. Yesterday Laura, aged fifteen, died and the coroner was notified. Both children were insured in the Hancock company for small amounts. The deaths suspiciously the officials, and after a search of the house a pound of Paris Green was discovered. The husband, who had applied for the insurance, is being looked for, while the police are searching for the missing baby.

No Outbreak Thus Far.

Richmond, Va., May 5.—Governor O'Ferral's advices from Pochontas late this evening are that there has been no outbreak so far among the miners who are holding their assemblies just over the West Virginia line. The Virginia troops are camped at Graham ready to move at a moment's notice and number 300. A thousand or 1,200 additional troops could be taken to the scene within a few hours. All the military in the state are under orders to be ready to move the moment they are required. The governor is in constant communication with the officer in command at Pochontas, where orders are to preserve the peace at all hazards.

Intense Feeling Created.

Paris, May 5.—The European edition of the Herald learns from its Tokio correspondent that Russia's attitude has created intense feeling in Japan. The tenor of the reply to the joint protest is firm. Russian ships are leaving Japanese ports for Vladivostok. Premier Count Ito will resign, the correspondent says, if allowed to do so. Should Russia force a war Japan would hope for an alliance with England.

Brothers Charged With Murder.

Boston, May 5.—About 9 o'clock this morning David Crowley was charged with being an accessory to the murder of John Burns in Roxbury last night. Crowley's brother Richard is also under arrest for the crime.

Tipped Out and Drowned.

Springfield, Mass., May 5.—"Doc" Sullivan, single, a bricklayer of Portsmouth, N. H., was drowned in the Connecticut river this morning. He was tipped out of a boat.

ON THE BALL FIELD.

Results of the Games in the Big League Yesterday.

At Chicago—A game that abounded in brilliant plays of a sensational character was witnessed by 9,500 people here to-day, when Louisville met Chicago. It was Pfeffer's last appearance as a professional until he signs with another club. He played a great game at second base. The game was essentially a battle of pitchers, both Terry and Luby receiving superb support. But Chicago found the ball safely when the hits were most needed to score. Fully 1,500 persons were refused admission because there were no accommodations for them. The score: Chicago . . . . . 2 0 0 0 1 0 0 0 — 3 Louisville . . . . . 0 0 0 1 1 0 0 0 — 2

Hits—Chicago 9, Louisville 6. Errors—Chicago 1, Louisville 1. Batteries—Terry and Moran; Luby and Zahner.

At Cincinnati—The features of to-day's game were the sleepy, listless manner in which the Cincinnati team played and the magnificent playing of Peltz, the St. Louis catcher. Out of five times at the plate he had two singles, two doubles and a triple. The score: Cincinnati . . . . . 1 0 1 0 0 0 2 0 — 4 St. Louis . . . . . 0 1 1 0 1 2 5 0 — 11

Hits—Cincinnati 10, St. Louis 15. Errors—Cincinnati 4, St. Louis 1. Batteries—Dwyer and Vaughn; Ehret and Peltz.

At Rochester—The Washington National league club played an exhibition game here to-day with the Rochester. Neither team played swift ball. The score: Rochester . . . . . 1 1 0 0 0 4 1 0 — 7 Washington . . . . . 0 0 0 0 6 5 2 3 — 0-16

Hits—Rochester 15, Washington 18. Errors—Rochester 5, Washington 2. Batteries—Payne and White; Anderson, McGuire and Mahoney.

BRIGGS CASE AGAIN.

It Will Come Up Before the General Assembly Next Week.

Pittsburg, May 5.—The one hundred and seventh general assembly of the Presbyterian church in the United States of America will convene in the Third Presbyterian church on May 16. Unusual preparations are being made for this event for the reason that this assembly makes the twenty-fifth anniversary of the reunion of the old school and new school churches.

The general assembly's deliberations will continue through the week. The Briggs case is one of the subjects to be passed upon. The relationship of the theological seminaries to the general assembly and the future attitude of the Presbyterian church toward the graduates of the Union Theological seminary will also be considered.

The first business of importance will be the election of a moderator.

Division between the conservatives and the liberals will appear at this time. This year the proportion of liberals is greater than it has been for years. Their candidates will be Dr. Beecher of Auburn, N. Y., or in lieu of him Dr. George Alexander of New York city. Dr. Alexander has been the head of the Briggs party in New York for five years. The conservatives have settled upon Dr. Robert Russell Booth of New York as their candidate. Dr. Booth has been foremost among anti-Briggs fighters.

There is a movement afoot among the extreme conservatives to bring up the question of Dr. Briggs' deposition from the ministry. That will depend upon the result of the contest for moderator. The conservatives are of the opinion that Dr. Briggs intends to turn his back on the Presbyterian church. He has been taking communion with a Protestant Episcopal church and all his family have already conformed to the Episcopal church. Among the minor matters which the assembly will consider, none will attract more attention than an attempt on the liberals to put down the salary of the stated clerk, Rev. Dr. William H. Roberts, who is an anti-Briggs man.

GREAT DAMAGE BY FIRE.

Millions of Feet of Hemlock Logs and a Saw Mill Destroyed.

Ridgeway, Pa., May 5.—Destructive fires have been raging throughout Elk county to-day. The greatest damage was done at Glen Hazel. A fire was discovered near that village early this morning. The flames rapidly encroached on the outskirts of the village and Dooliver's saw mill with 10,000,000 feet of hemlock logs, 1,200 feet of the Erie railway tracks, sixteen cars and six dwelling houses were burned.

The fire this evening was finally got under control in Glen Hazel, but is still burning in the woods. The estimated loss to to-day's conflagration is \$125,000.

INTERNATIONAL RACES.

Many American and English Horses Entered for the Berlin Events.

Berlin, May 5.—Many American and English horses have been entered for the Hoppergarten races, which will be run here on Monday and Tuesday. A still more important event than the Hoppergarten meeting will be the Dresden races on May 19, 24. The three principal races will be the Grand Saxon, the great Dresden steeplechase and the residence hurdle. Several American horses have been entered. Arrangements have been completed to give Germany next year her first race for such large stakes as are won in the famous American, English and French turf events. The race will be on the borsteler course at Hamburg for a prize of 100,000 marks.

The international lawn tennis match at Homburg will begin on August 20.

Messrs. Harrison, Moran and Stanhope represent the United States.

Brothers Charged With Murder.

Boston, May 5.—About 9 o'clock this morning David Crowley was charged with being an accessory to the murder of John Burns in Roxbury last night. Crowley's brother Richard is also under arrest for the crime.

Tipped Out and Drowned.

Springfield, Mass., May 5.—"Doc" Sullivan, single, a bricklayer of Portsmouth, N. H., was drowned in the Connecticut river this morning. He was tipped out of a boat.

EDGEWOOD PARK IMPROVED

WORK DONE BY PARK COMMISSION IN WESTERN PART OF CITY.

Beautiful Groves and Fine Drives Laid Out—West River Marshes Being Filled In—Other Improvements Being Made—Artificial Lake Being Made.

Although it is so easily accessible, few New Haveners realize the possibilities in the improvement of the Edgewood Park, situated in the western part of the city, between Chapel street and Whalley avenue, and extending along West river. This is the only park belonging to the city except East Rock Park, which is exclusively in the hands of the park commissioners and they are now so improving it that it will soon be one of the quietest, prettiest spots for picnics or holiday excursions to be found in this vicinity. The title of that part of the park west of the river is vested in the town, as it was purchased by the park commissioners with town money.

About 300 feet west of Edgewood avenue are three small hemlock groves, which the park commission proposes to put in shape for a pleasure resort by placing seats there and building walks. The groves are situated on a slight bluff overlooking the meadows, and at the foot of this bluff a drive will be built extending from the west end of the Edgewood avenue bridge along the foot of the declivity to Whalley avenue.

The underbrush and briars have all been cleared out of the groves, so that even at present they are delightful places to spend the sultry afternoons. The aromatic perfume thrown off by the hemlock is also very beautiful, and makes the resort doubly attractive to persons with weak lungs. This spot is free from the bugs which are so plentiful in the meadows south of the Chapel street bridge. The paths through the grove will lead in from the park roadway.

It was the intention of those advocating improvements in the western part of the city to extend the small park between the two sections of Edgewood avenue at this point on the Forest street, but this is now impossible unless the tracks are chanced.

Passing south from Edgewood avenue to the new Meadow Drive, the park, which will soon be fixed over into a fine walk, leads through a beautiful grove of maples, then through a grove of native elms. The hillside between Edgewood avenue and Chapel street was last year covered with briars and bushes which made a hiding place for rumps, but has now been all cleared off and the spaces between the trees cleared.

The driveway, thirty feet in width, now being built, enters the park from North street, between two banks, which will be graded off and seeded, making a very pretty road between the two green hillsides. It will be crossed with a rustic bridge by another drive along the top of the bluff, and will extend along the foot of the bluff to the Edgewood avenue bridge. An enormous amount of filling in has been done already in building this drive, as the ground of the meadows is much of it a springy muck into which the filling material sinks in some places to a depth of twenty-five or thirty feet before a solid foundation can be reached.

These marshes have always been a menace to public health and this is the first effort which has been made to convert them into a better condition. A petition to the court of common council has been circulated by Joseph E. Mann, member of the board of health, praying that the West river meadows be filled up. The petition was referred to the committee on retrenchment and reform, which gave a hearing on the matter last Wednesday evening, and the committee will visit the West river meadows next Wednesday to investigate.

In the southern part of the park near Chapel street, is a curiosity in the shape of an elm tree into which another small tree growing beside it has enshrined itself so that it presents the appearance of a banyan tree on a small scale. It is also proposed to make a small lake out of the pond near Chapel street, which will add another to the many attractive features of this new park.

The material used for the filling in of the sink holes in the meadows is being taken out of the bank at the corner of North and Chapel streets so as to make place for the drive down the bank. Enough earth will be taken out to give the drive a slope of five feet in one hundred feet.

On top of the bluff near Edgewood avenue a nursery of about 2,000 Norway maples has been set out, which in five or ten years will be large enough to transplant wherever they may be needed in the park. There has also been purchased a large number of red and whitehorse chestnut trees, and ornamental shrubs, such as Japanese snowballs, Rose of Sharon cypripedium Japanese and lilacs, which are not injured by having flowers plucked from them. Near the nursery is what is known as the "Children's Oak," a fine tree of which the branches have a spread of ninety-five feet.

There is a splendid view from the top of the bluff over the meadows, and it is safe to say there is no finer lowland view in this vicinity and no portion of the city's possessions promises so much of comfort and pleasure to the people as they will obtain in Edgewood Park after the improvements are completed. The work is being carried on by the park commissioners, Messrs. Henry F. Blake, Henry P. English and Felix Chillingworth, the sub-committee on Edgewood Park, although Mr. Chillingworth from his near residence to the park has the improvements practically under his personal supervision.

FIFTY MEN LOST.

Fight With the Insurgents at Cuba's Terrible One.

Jacksonville, May 5.—A cablegram from Key West, Fla., says the latest Cuban advices state that Puentes, the correspondent of a New York paper, arrested in Guantanamo on the second instant, is charged by the Spanish authorities with negotiating with Gomez and Marti for the sale of arms and ammunition.

"The Spanish government finds great difficulty in getting provisions, etc., to troops at Bayamo. The American tug Pedro Pablo has been converted into a transport. All the fortifications around Manzanillo have been destroyed by the insurgents. The province is virtually in their hands. The battle at Raymond is jagas on the 19th of April, according to an eye witness, was terrible. The Spanish troops were almost annihilated. The battle lasted nearly three hours. The insurgents lost fifty men. The leading members of the home rule party in Cuba, on account of the government's refusal to institute reforms, have resigned. The belief is general that the revolutionists will be greatly strengthened. Two bands of 500 in the province of Santa Clara have joined the insurgents. They are led by Colonel Quinto Brayo, a former revolutionist, and Dr. Bruno Zeyela, very prominent in the province.

HE IS STILL VERY SICK.

Washington, May 5.—Secretary Gresham is resting more easily to-night and is comparatively free from pain. He changed physicians yesterday and the treatment for pleurisy, instead of gall stones, resulted in immediate relief. He is still a very weak man as the disease has fastened itself upon him to an extent which caused great weakness and he will probably be in bed for some time. As soon as he is able to stand the fatigue of the journey the secretary will be taken to the French Lick Springs, Ind., which have always been highly beneficial to him.

Robbed a Minister.

Worcester, Mass., May 5.—The residence of H. P. Rankin, pastor of the Coral street M. E. church, was entered by burglars while the pastor was preaching at his church to-night and several articles taken.

Escaped From County Home.

Middleton, May 5.—Wealthy Withrop, aged fifteen, escaped from the county home at Haddam this evening. It was thought that she had gone to her home in Wethersfield, but she is not anywhere in the city. She has run away before.

HE IS IN DOUBT.

Mr. Edson Will Wait Before He Accepts the Position.

Worcester, Mass., May 5.—Andrew W. Edson, agent for the state board of education, is a candidate through friends, without having made personal application, for the position of superintendent of schools in New Haven, Conn.

He declines to discuss the matter to-night further than to admit he had been informed of a canvass in his behalf. "I do not know whether I would accept until I hear the decision of the New Haven board," he said.

WORK BEGUN

For the Erection of a Big New Car House—Eighteen New Open Cars.

Work was begun Saturday for the erection of the big new car house which the New Haven Street Railway company are to build on Ferry street, Fair Haven, near the old Shore Line railroad crossing. The building will be 155 feet 8 inches by 88 feet, and the walls, which will be of brick and stone, will be from 18 to 23 feet high. There will be eight sets of tracks running into the building, which will accommodate a large number of cars. The roof will be of iron trusses, supported by iron columns, and has been planned and will be built by the Berlin Iron Bridge company. The roof will be planked and covered with slate. There will also be a plank floor and the tracks will be laid on timbers supported by brick piers. Connor Brothers are laying the foundations. The lot is an ample one. The building will be used chiefly for the storage of cars.

The New Haven Street Railway company on Saturday put on one of its new open cars—one of the eighteen new open cars which it is to put on its line this summer. The new cars are very handsome.

"BOBBY MELVILLE OF LONDON."

Jean Pardee's New Play to be Produced at Hyperion.

The sale of seats for the production of "Bobby Melville of London" will open at the box office of the Hyperion theater this morning.

Bobby's debut seems one of great interest to all of New Haven, and the outlook for good houses both Friday and Saturday nights is most favorable. A change in the cast has been made, the part of Barn Burgh having been transferred from Mr. A. G. Hurlburt to Mr. Bristol, the son of F. E. Bristol of New York. Mr. Bristol came up from town on Saturday in time for rehearsal that evening. He is a clever comedian and will make a great deal out of his part. Miss Helen Lamb has been secured to fill Mrs. Albert Tanyane's role, that of Miss Frances Merrewether, Mrs. Tanyane having come down with a bad throat that renders her singing a practical impossibility.

IS DUE TO CARELESSNESS.

BOTH ENGINEER AND FIREMAN LEFT THEIR LOCOMOTIVE.

A Moment After the Locomotive Throttled Threw Open and the Engine Dashed Down the Track and Collided With a Passenger Train Injuring Several People—No One Was Killed.

Little Rock, Ark., May 5.—A wild engine collided with a passenger train on the St. Louis, Iron Mountain and Southern road, near Clarksville yesterday. Thirteen passengers were injured, none, however, fatally.
